

Assignment 8 – Team Mate Evaluations

Tarun Gupta: 5

Tarun consistently set up meetings, actively participated in them, gave really value addition inputs and was very motivated in taking work forward. He was the one who completed client interviews first, and posed many pertinent questions to ask about our product, and was very strong in outlining the technical nous of our idea. Tarun also contributed in finding out about the addressable market and correcting our strategy based on user feedback.

Rishabh Pandita:5

Rishabh was a great guy to be around with. He brought together the whole group, and was very regular in communicating his progress, division work amongst ourselves and was very self-motivated in choosing his task. He also gave a thorough explanation of his idea (which was what we chose as our common idea) to me, and was easy to work with. He reviewed my specifications and came up with useful suggestions during the peer review.
